CAMS EXTRACURRICULAR ACTIVITIES / ATHLETIC ELIGIBILITY POLICY

CAMS students are encouraged to take part in the extracurricular activities offered at CAMS, while keeping in mind that academic classes should be their primary concern. It is for that reason that the following policy will be used to determine whether a student is eligible to take part in athletic and/or extracurricular activities.

1. Extracurricular activities are those activities that occur outside of instruction. Examples include robotics events, club events, dance shows, and athletic competitions. This does not include in participation in sports practices, club meetings, robotics courses, dance courses.

2. Students participating in extracurricular activities must maintain a minimum grade point average of 2.0.

3. Students participating in extracurricular activities will not be allowed to participate if they have a “D” or lower in 2 or more of their classes.

4. Students participating in events that occur during class time are responsible for completing any work assigned in the class they missed. The student and teacher should agree as to when the missed work should be turned into the teacher prior to the event date.

5. Students taking university classes should be sure the college professor is aware of the class days he/she will miss due to the event.

6. Should a student have a university or CAMS class exam on the day he/she will miss, prior arrangements need to be made to take the exam early or make it up. If no agreement has been made, the student should have the university class exam take precedence over the event and attend the university class and take the exam on the scheduled date. However, most professors will accommodate CAMS student needs.

7. Eligibility will be determined by the grade reports that are distributed to the entire student body (i.e. progress reports and semester report cards). A student with ineligible grades in the spring semester will have to wait until the first progress report card of the following fall semester to determine eligibility for fall semester activities.

8. Student can appeal their placement on the ineligible list for extenuating circumstances. Appeals will be made to the grade level team, counselor, and principal. Appeals are not granted for an updated grade in the class due to assignments being turned in. Check with your grade level lead teacher for appeal process details.

9. CAMS offers academic help to students who are struggling in their course work. Students are encouraged to take advantage of the help available at CAMS and students on the academically ineligible list may be required to participate in selected intervention programs.

10. Any questions concerning this policy can be directed to the assistant principal.
